How this claim was figured

Class I Preventive services (the evaluation, the cleaning and the bitewing x-rays): the Deductible is waived and the Plan paid 100% of the Allowed Amount.

Resin composite filling on tooth 30 (Class II Basic): \$50.00 of the \$210.00 Allowed Amount went to the Deductible. The Plan paid 80% of the remaining \$160.00, which is \$128.00. Your share is the \$50.00 Deductible plus 20% of \$160.00, \$82.00 in total.

Northside Dental Group (fictional) is a participating dentist, so the difference between its charges and the Allowed Amounts (\$155.00) is not billed to you.

Your plan at a glance

The rules below are printed as they appear in the Tidewater Dental Select 2026 Certificate of Coverage (fictional).

Plan and dates

Coverage under this certificate is effective July 1, 2026 through June 30, 2027 and is offered in North Carolina and South Carolina through the Tidewater Choice network.

Benefit Year

Benefit Year means the Policy Year, July 1 through June 30.

Deductible

The Deductible is \$50 per Covered Person and \$150 per family each Policy Year. The Deductible is waived for Class I services.

Coinsurance

Class I Preventive services: the Plan pays 100% of the Allowed Amount. Class II Basic services: the Plan pays 80% of the Allowed Amount. Class III Major services: the Plan pays 50% of the Allowed Amount. The same percentages apply in-network and out-of-network.

Class	Plan pays	You pay
Class I	100%	0%
Class II	80%	20%
Class III	50%	50%

Annual Maximum

The Annual Maximum is \$1,500 per Covered Person each Policy Year. The Annual Maximum is the most the Plan pays for covered services in a Policy Year; it does not limit the amount you may owe. All classes of covered services count toward the Annual Maximum.

Covered services

Class I Preventive services include oral examinations, cleanings, bitewing x-rays, fluoride treatment for children, and sealants for children under 16.

Class II Basic services include fillings (amalgam and resin composite), simple and surgical extractions, and emergency treatment of dental pain.

Class III Major services include crowns, inlays, onlays, bridges, partial and complete dentures, root canal therapy, scaling and root planing, and periodontal surgery.

Waiting periods

Class III Major services are covered only after the Covered Person has had 12 months of continuous coverage under this Plan.

Frequency limits

Oral examinations and cleanings are covered twice per Policy Year. Crowns on the same tooth are covered once in any 60-month period.

Tidewater Benefit Trust (fictional)

Alternate benefit

This Plan does not apply an alternate benefit provision; benefits are based on the Allowed Amount for the service performed.

Participating and non-participating dentists

Participating dentists accept the Allowed Amount as payment in full; the difference between the dentist's charge and the Allowed Amount is not billed to you.

For non-participating dentists the Plan pays on the same Allowed Amount; a non-participating dentist may bill you the difference between the charge and the Allowed Amount.

Exclusions

The Plan does not cover dental implants, cosmetic services, or services started before coverage began.

The Plan does not cover the replacement of a tooth that was missing before the Covered Person's coverage began.

Date of service

For multi-visit procedures, the date of service is the date the procedure is completed (for crowns, the cementation date).

About this sample

This is a fictional sample statement made for the OralCompass demo. Tidewater Dental Select 2026 and Tidewater Benefit Trust do not exist, and this is not an offer of insurance.
